EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. Forman on 4-20-2005. During the interview, Applicants agreed to limit claim 38 to the method of treating gastroesophageal reflux disease to place the application in conditions for allowance.

The application has been amended as follows:

Claim 38, lines 1-4, delete 'gastrointestinal disease,.....or nausea'.

REASONS FOR ALLOWANCE

2. The following is an examiner's statement of reasons for allowance:

Claims 15-31, 36-38 are allowed.

The 112 first paragraph rejection for claim 38 is withdrawn in view of the amendment limiting the claim to the method of treating gastroesophageal reflux disease, which finds support on pages 3, 31-32 of the specification. The scope of the claim is now commensurate with that of the objective enablement.

Uchida (6624162) discloses a 5 HT4 receptor binding piperidinyl-imidazopyridine compound similar to the instant. Uchida's piperidinyl is substituted by hydrogen, alkyl or alkoxyalkyl, whereas the alkyl on the piperidinyl in the instant compound is required to be substituted by one or two substituents not taught by Uchida. Absent is the motivation to modify the prior art compound to arrive at the instant invention.
